SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
Washington, D.C. 20231

Applicant hereby discloses the following:

The use of adhesive compositions in the preparation of fiberglass-like compositions is prior art to the subject application. Specifically, a third party conceived the idea of using adhesives to prepare fiberglass-like boards for use as packaging materials. The third party tried a number of different adhesive compositions in this respect. Finding these adhesive compositions unsatisfactory, the third party contacted Grain Processing Corporation, the assignee of the subject application, for assistance in providing adhesive composition that would be useful in connection with fiberglass-like boards. The third party is not believed to be a co-inventor of the subject application. Should the Examiner require further information concerning this aspect of the prior art, he or she is encouraged to contact the undersigned attorney.
